

Golfmanager added 8 new golf courses in September: Arabella Golf Mallorca, Palmares Golf, and La Estancia joined our Community

- **Arabella Golf Mallorca is the largest golf resort in Spain with four courses, Palmares is a top one in the Portuguese Algarve and La Estancia is one of the most outstanding golf courses in the Dominican Republic**
- **The Spanish, Portuguese and Dominican clubs, respectively, changed their traditional software for Golfmanager's 100% cloud-based technology, which continues to make significant progress in 2021**

Madrid, 30 September 2021. Golfmanager, the leading 100% cloud-based software in Spain and Portugal for the digitization and management of golf clubs, closes the month of September adding eight top golf courses to its Community.

In Spain, Arabella Golf Mallorca, the largest golf resort in the country and leader in the Mediterranean, with four courses on the Balearic island, has started using Golfmanager technology to manage its daily operations.

Along with Arabella Golf, the Portuguese course Palmares Golf and the Dominican La Estancia Golf Resort & Country Club have also digitalized and migrated all their operations to Golfmanager software, which is an official partner of Oracle Hospitality and has recently been highlighted as a strategic partner of Leading Courses, the largest golf course comparison platform in Europe.

Golfmanager is the software chosen by top golf courses

All eight courses are already active in Golfmanager, which undoubtedly confirms the technological potential of the *all-in-one* management software for golf clubs.

Arabella Golf Mallorca has four golf courses close to Palma de Mallorca (Golf Son Muntaner, Golf Son Vida, Golf Son Quint, and Golf Son Quint Pitch & Putt) with a total of 63 holes in a fantastic setting close to the Mediterranean Sea.

Palmares Ocean Living & Golf is a top one in the Portuguese Algarve. This club has three 9-hole courses (Alvor, Lagos and Praia) designed by the architect Robert

Trent Jones Jr. The courses slope down to the Atlantic Ocean, allowing all golfers the opportunity to play in a wonderful setting full of natural beauty.

La Estancia Golf & Country Club is one of the most outstanding clubs in the Dominican Republic, where Golfmanager already has 4 other courses, including Punta Espada, the largest golf resort in the Caribbean. This spectacular club offers one of the leading golf courses in the country with 18 holes designed by the renowned P.B Dye.

Rafael Vera, CEO of Golfmanager, says: *"It is a real privilege that such prominent courses as Arabella, Palmares, and La Estancia have chosen Golfmanager's technology. We know that they have been comparing several American and European software but finally, they chose us because of the enormous capabilities that our technology offers them for the digitization and all-in-one cloud management of their courses".*

"We continuously listen to our customers and offer them technological solutions fully adapted to their needs. We want to go beyond and we are working on new products such as the app or the widget, which are already being tested on selected courses. We intend to lead the digitalization in the golf industry and that can only be achieved with a customer-centric philosophy as we are focused on their needs to create the best product".
