COMPANY OVERVIEW

Golfmanager was founded in 2018 and since then has shaken up the golf software industry. Based in Spain, the Golfmanager software solves any operational need of any Golf Course, from smallest ones to golf resorts and from members clubs to social clubs. With clients in 4 continents, Golfmanager was recently awarded by Capterra with Best Value, Best Ease of Use and Best Functionality & Features badge. Golfmanager is publicly recognized to have the most flexible, advanced and fast technology in the market.

INTEGRATION OVERVIEW

Golfmanager is now integrated with Oracle Hospitality Opera 5. With this integration all Resorts using the Oracle and Golfmanager technologies will be able to room charge any product or service of the Resort directly from the POS. A couple of clicks will be enough to complete the task, making the whole process much faster and efficient for the employees.

INTEGRATION DETAILS

The interface enables the following:

- Send Inquiries to Oracle Hospitality OPERA PMS to check room occupancy. Inquiries can be done by room number or guest name.
- Send room postings to Oracle Hospitality OPERA PMS.
- Select Oracle Hospitality OPERA PMS transaction code. Code available by revenue center, sales itemizers (article's group), and payment method.
- Send Cash or Credit card postings to Oracle Hospitality OPERA PMS.
- Handle NoPost flag notifications received from Oracle Hospitality OPERA PMS.
- Handles individual postings for each occupant in the room.
- Void a previous posting.

ORACLE Validated Integration Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an on-premise Oracle application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.
